LiteMagic ABOUT LITEMAGIC

LiteMagic has been active in the field of LED lighting since 2003. In collaboration with the professors from Hong Kong University of Science and Technology and after deep, large scale survey of products and market, Shenzhen LiteMagic Technologies Co., Ltd. founded in 2004 in Shenzhen, China.

Relying on adequate local talents and advanced technologies, LiteMagic grew rapidly and has a full range of business activities in China, including R&D, manufacturing, sales, and services. LiteMagic dedicated to offering innovative and professional LED lighting solutions for Asia and global customers and setting up local distributors all around the world in China, Hong Kong, Singapore and Australia etc.

Founded half a year, LiteMagic successfully installed the outdoor transparent display for Harbour City, Hong Kong. And in the same year, another project was completed for Miramar Shopping Centre, Hong Kong. LiteMagic innovatively installed the Rainbow Spot behind the glass wall by steel wire, which appeared as a large display showing all kinds of animations, Christmas and New Year's countdown and left visitors for unique and wonderful memories.

In 2006, LiteMagic introduced Glamour Strip-B. The featured project in the Garden City Centre, Shenzhen wins appreciation from competitors and media.

In 2007, LiteMagic continuously developed Glamour Spot & Glamour Strip-C. And the two products are applied to 29 Olympic Information Trees in Beijing and 5 surrounding buildings at the sailing venue in Qingdao, which added much color and glamour for the success of the Olympic Games in China.

Besides the above milestone projects, LiteMagic partners with contractors, lighting design companies, and has completed many well-known lighting projects including: "Moon Ring" of Xiamen EXOPO, (2007 the Best Landscape Lighting Design Award) Guang Gu Starlight Avenue, Wuhan, Double-side display of National Trade Building, Wuhan, The Bonanza hotel lighting project, Shenzhen, Le Meridien Hotel Project, Hainan, Gansu Museum lighting project, Zhengzhou Art Center Lighting project, Pazhou Time Tunnel Project, Hebei, etc. These impressive lighting projects become famous local landmarks that thousands of tourists visit every year.

LiteMagic focus on the development and production of LED lighting products, and provide complete solution for lighting engineering company. After years of untiring efforts, LiteMagic has developed "Glamour", "Magic" and "Soft LED" 3 main series of decorative lighting products, and many exquisite commercial lighting fixtures. LiteMagic products not only have aesthetic appearance, special features, but also excellent quality and reliable function. Partial products have obtained numerous creation and design patents in China and worldwide.

LiteMagic also developed exclusive lighting controlling system integrating lighting fixture distribution configuration, audio conversion, image and real-time video data acquisition, gigabit Ethernet transmission technology, which can remote control various lighting slave controlling systems in broad areas, and also allows central control.

This catalogue introduced the full range of products and featured projects from LiteMagic. LiteMagic are continuously providing innovative and customized products, OEM services and lighting solutions to create long-term value and potential growth for our customers. Believe this catalogue will be the bridge between you and LiteMagic and let us work together to light up the infinite future.
